Cardiff-based discovery tools company AssayMetrics moves into expanded facilities

AssayMetrics Limited, the Cardiff drug discovery tools company, is pleased to announce that due to growth and to facilitate production of the new **Fluospec[®] FL** instrument the company has moved into new, larger facilities at the Cardiff Medicentre.

The new facilities include a Demonstration and Training Laboratory as well as assembly facilities for the new **Fluospec[®] FL** Fluorescence Lifetime plate reader.

Dr Pierre Graves, CEO of AssayMetrics Ltd said, "The new facilities will enable us to demonstrate our world-beating technology, which is aimed at more efficient drug discovery, arising from the early interest shown by pharmaceutical companies."

Further information on the product or about AssayMetrics Ltd can be obtained by contacting Dr. Pierre Graves, Chief Executive Officer pierre.graves@assaymetrics.com.

Meetings and conferences

Visit us at Elrig, Manchester September 7-8th 2011. Stand B9.

Visit us at Orlando, Society for Biomolecular Screening's 17th Annual Conference, 27th-31st March 2011. Booth 915.

See us at home in Cardiff at BioWales 1st-2nd March 2011
